ELECTRIC BYWAYS

Prepared Exclusively for Jeep

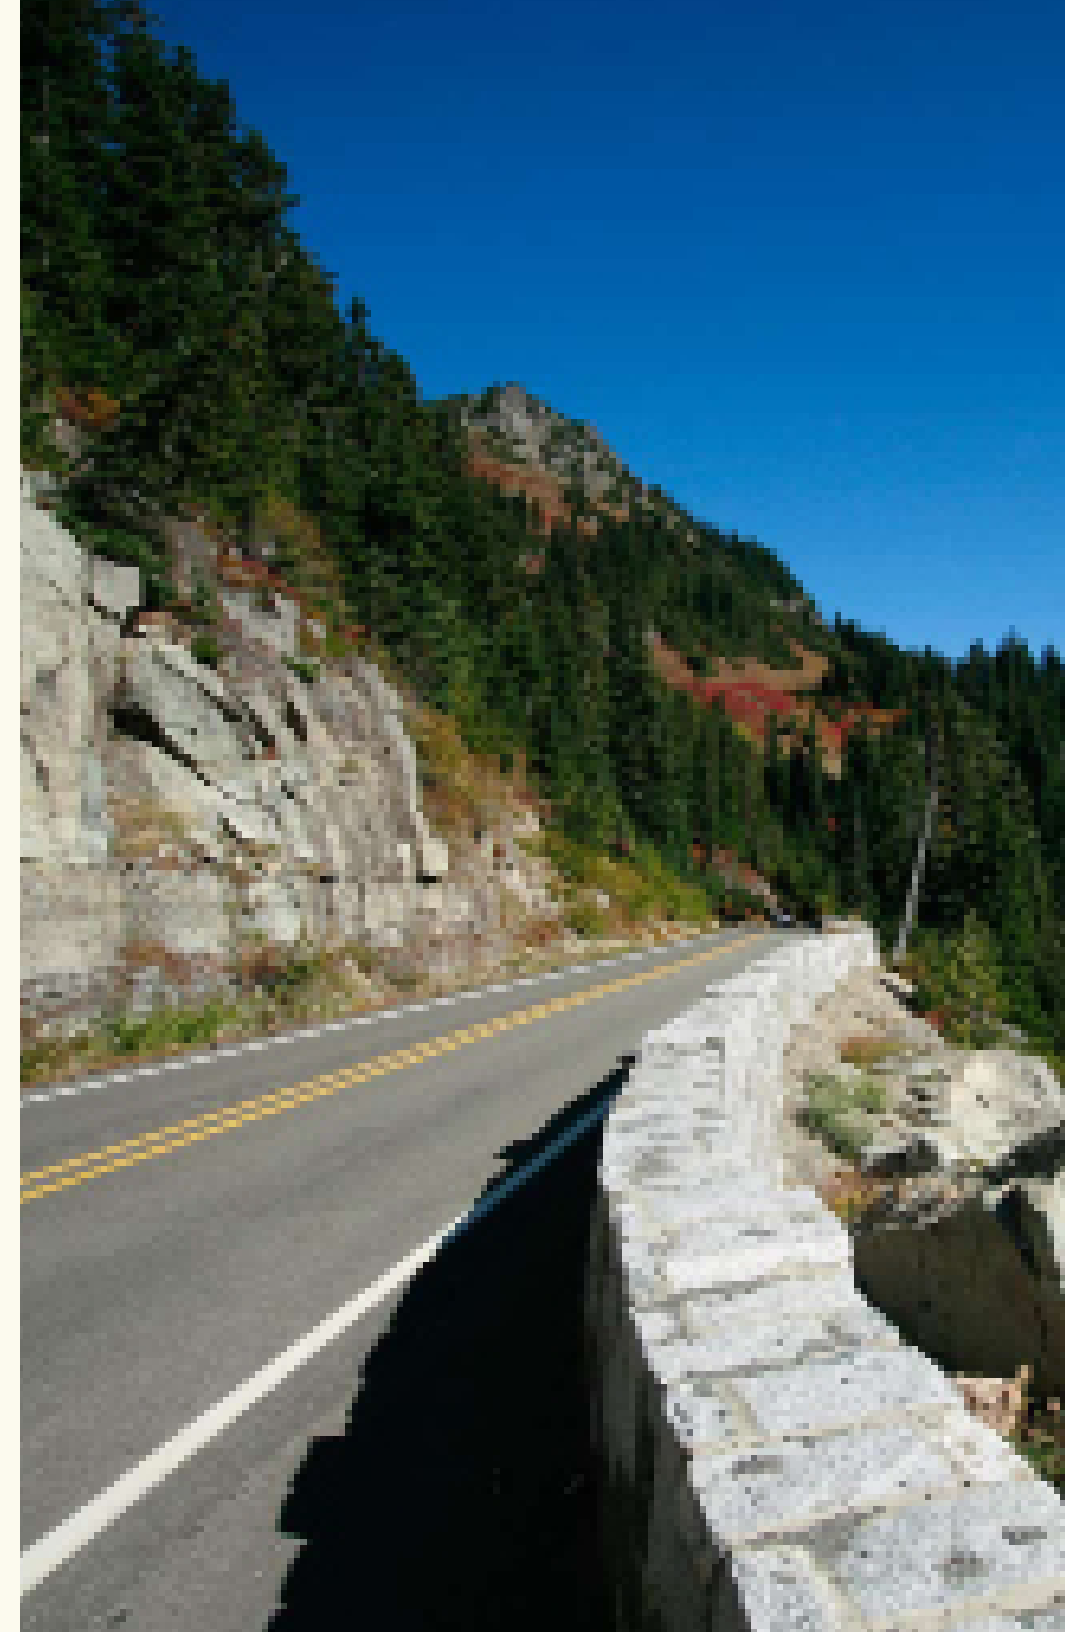

Official Brand of the All-American Road Trip

America's Byway is a collection of the most beautiful roads in America. Designated by the Secretary of Transportation, they connect outdoor adventurers to numerous national parks, state parks and national forests. *Electric Byways* leverages these roads to accelerate EV/hybrid adoption, reduce range anxiety and align Jeep with iconic drives, showcasing Jeep's line-up on spectacular, EV-friendly byways.

AMERICA'S BYWAYS, 184 SPECTACULAR ROADS, INCLUDING:

- Route 66
- Blue Ridge Parkway
- Lincoln Highway
- Beartooth Highway (entryway to Yellowstone)
- Pacific Coast Scenic Byway and many more...

Program Elements

Official Automotive Partner of the National Scenic Byway Foundation

Working with partners at the National Scenic Byway Foundation, along with the DOT and DOE, we will engage the public to explore *America's Byways*. *Electric Byways* aligns with DOT/DOE interests by educating the public on scenic byways *and* by encouraging EV use. The program leverages the Foundation's constituents – including all 50 state DOTs, the FHWA and a myriad of DMOs from around the country – to further align Jeep with the all-American road trip tradition.

THE JOY OF DRIVING

America's coast-to-coast network of scenic byways takes you through the most beautiful parks and landscapes in the world. The National Scenic Byway Foundation supports these iconic roads and the adventures that they inspire.

PR, Community & Government Relations Benefits

By supporting a **key federal initiative**, a modest investment in 2023 can open doors far beyond traditional media, including the following scalable elements:

- Press event with senior DOT/DOE officials.
- Coordinated PR efforts with Foundation and government partners
- Grassroots volunteer events with DMOs and byway nonprofit partner organizations.

**Authentically
Connect With Key
Constituents**
